

Sprint 2 - Schedule.pdf

Network Diagram:

Tasks with dependencies:

Any tasks connected to pet sitting booking - create job posting, display job requests on dashboard, add booking to database, confirm booking etc.

Critical Path: **blue line**

Explanation:

To keep our sprint on schedule, we ensured that tasks that are critical are assigned a higher priority, and we set deadlines for these tasks to come before any other tasks so that there aren't any hanging dependencies when we work on other tasks, and the project can be completed efficiently.
